Read every room *before* you move in.

Your own founder portal, no dev team.
Village runs it, or you do.

Schedule call

GitHub

Open source under AGPL-3.0.

Your fund's name on the door.

Village sets it up in week one.

Every room, marked as it stands.

1 **Paths and wider search need Village.**

10 rooms, 10 modules

Asks Built

Five kinds of ask. Answers kept.

Intros Built

Nobody is introduced without saying yes.

Network Built

Paths through people, never contact lists.

Members Built

Who is here, and how they help.

Messages Built

One-to-one, between members.

Feed Built

Ask, Win and Offer posts.

Job board Built

12 hiring tools, read every hour.

Perks Partly

Your BuiltFirst perks, inside the portal.

Chat Partly

Asks go out to Slack and Discord.

Coming WhatsApp, Telegram, Signal

Admin Built

Every intro, ask and outcome, counted.

Merged in public.
Counted for partners.

(2) **Your Postgres. Members export their data.**

Read the merge history

Rev	Merged change	Ref
A	Licence switched to AGPL-3.0	PR #11
B	Today page and weekly email	PR #17
C	Asks post to Slack and Discord	PR #18
D	Export and delete your data	PR #20
E	Job board	PR #21

Intros this quarter Sample	Count
Asked	42
Introduced	24
Declined	9

Schedule call

Village replies within 1 business day with a time for the call. Your details are used only for this request.

Your own server

Free. You pay your host. Read the code

```
curl …/install.sh | sudo bash
```

Read the self-host guide

Point a domain at your server and paste one command: it runs on HTTPS, restarts by itself and backs up every day. The guide says what to rent.

Free to self-host · Managed from $1,000 a month

Managed: $1,000 a month billed yearly or $1,200 month-to-month, up to 500 members. Search and paths use Village credits; 7,500 a month included on Managed.

Every room is in the public repo.
