Read every room *before* you move in.

Your own founder portal, no dev team.
Village runs it, or you do.

Schedule call

GitHub

Every room, marked as it stands.

1 **Paths and wider search need Village.**

10 rooms, 10 modules

Asks
Five kinds of ask. Answers kept.

Intros
Nobody is introduced without saying yes.

Network
Paths through people, never contact lists.

Members
Who is here, and how they help.

Messages
One-to-one, between members.

Feed
Ask, Win and Offer posts.

Job board
12 hiring tools, read every hour.

Perks
Your BuiltFirst perks, inside the portal.

Chat
Asks go out to Slack and Discord.

Coming WhatsApp, Telegram, Signal

Admin
Every intro, ask and outcome, counted.

Merged in public.
Counted for partners.

2 Your Postgres. Members export their data.

Read the merge history

Run it yourself, or Village runs it.

Schedule a call

Village runs it: $1,000 a month, billed yearly

Schedule call

Village replies within 1 business day with a time for the call. Your details are used only for this request.

Your own server

Free. You pay your host. Read the code

```
curl …/install.sh | sudo bash
```

Read the self-host guide

Point a domain at your server and paste one command: it runs on HTTPS, restarts by itself and backs up every day. The guide says what to rent.

Free to self-host · Managed from $1,000 a month

Managed: $1,000 a month billed yearly or $1,200 month-to-month, up to 500 members. Search and paths use Village credits; 7,500 a month included on Managed.

Every room is in the public repo.
